Thakkali Rasam with dal

Rasam is a south Indian Soup, prepared with tomato, dal and various aromatic spices. To me, they are the comforting food next to idly. They are mildly tangy, watery in consistency and a medley of fresh aroma and flavors. South Indian meals are incomplete without rasam. Many family in south India makes rasam everyday. They are the soul food to many homes. Coming to the recipe, everyone makes rasam in a different way and this is my version of tomato rasam recipe, without tamarind, here I added toor dal in additional to tomatoes, to get a nice taste and also for protein. The one thing I like most in rasam is the lovely flavor and fresh aroma which comes from coriander leaves, asafoetida and garlic. Making of rasam is easy and can be made fast, they are good for digestion as it has lot of spices in it. Also it is

a good food for people with fever and cough. Tomato rasam can be served with potato fry or vegetable fry. I had it with butterbeans poriyal.

4 Tomatoes
3 Tbsp of Toor Dal
Salt to taste
Water as needed

To Make a Rasam Powder

- Place all the ingredients listed under ” To make rasam powder list” in a mortar and pestle or mixie, grind it to a fine powder.
- In a bowl, squeeze the tomatoes with your hand or else grind it to a puree in mixie, now to the tomato puree, add rasam powder, salt and enough water about 1-1.5 cups

of water. Check the salt by tasting it with a spoon.
